

Using iPads in the Cockpit a guide for Pilots and Instructors

This Free WINGS Credit Class is part of the NW Aviation Conference.

Paper charts are decreasing in use and iPads can be better and safer, ONLY IF, the pilot receives the needed training. Airspace violations have increased 10X in certain areas because pilots are making common mistakes and using iPads incorrectly. This fun class will help you learn which programs and hardware are the best for you and get you started on using and teaching with iPads safely.

Directions: For directions please visit <http://www.washington-aviation.org/directions.html>

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
